Introduction

The report which follows represents a compilation and analysis of data reported by Indiana Public Libraries for the year 1990. Of the 238 Indiana Public Libraries, 236 reported information for the calendar year 1990.

Academic, Institutional, and Special Libraries were requested to report data for the fiscal year July 1989 through June 1990. Of 356 surveys mailed to Academic (including regional campuses), Institutional, and Special Libraries, 156 usable surveys were returned.

The programming software, SAS, available through the Information Services Division, Indiana Department of Administration was used to prepare the statistical tables.

More detailed and additional information is available in some categories. A machine-readable copy of the database or other printed compilations and analyses may be requested from the Indiana State Library. For details on cost and availability, contact the Library Information Coordinator, Extension Division, Indiana State Library, 140 N. Senate Ave., Indianapolis, IN 46204-2296.

Public Library Categories Based on Population Served

Population Category	Population Rankings	Number of Libraries in Category
Libraries serving more than 100,000	1 - 11	11
Libraries serving 50,000 to 100,000	12 - 23	12
Libraries serving 25,000 to 50,000	24 - 45	22
Libraries serving 10,000 to 25,000	46 - 94	49
Libraries serving 5,000 to 10,000	95 - 140	46
Libraries serving fewer than 5,000	141 - 238	98
	Total Libraries	238

Notes and Corrections

SECTIONS 1 AND 2

Sections 1 and 2 are arranged alphabetically and can be used as indexes for the remaining sections, which are arranged by population ranking.

SECTION 2

In Section 2, assessed valuations and tax rates were not reported by some libraries (indicated by a "."). In the case of contracting units, however there is no tax rate.

Some assessed valuations per capita may appear unusually high because 1980, not 1990, census data were used.

SECTION 3

In Section 3, borrowers lists are often not updated on an annual basis. This list, therefore, does not reflect current activity but rather reported activity.

Circulation per FTE is inaccurate if library did not report sufficient information to calculate FTE for employment analysis.

In 1989, Middletown-Fall Creek Twp. Public Library reported circulation for periodicals and audio materials only. In 1990, the library reported circulation of all materials resulting in an 11,576% increase over the year before.

SECTION 4

In Section 4, all libraries show a missing value for revenue sharing funds because those funds are no longer available.

Operating income decreased for the following libraries because they received part or all of their 1990 property tax settlements after December 31, 1990 due to reassessment: *Attica, Boonville-Warrick Co., Clinton, Jonesboro, Mishawaka-Penn, Newport-Vermillion Co., St. Joseph Co. (South Bend), and Walkerton-Lincoln Twp.*

Operating income for Syracuse-Turkey Creek Twp. Public Library increased because they deposited their December 1989 property tax settlement in January 1990.

Hussey-Mayfield Memorial Public Library (Zionsville) became a Class I Library with property tax income in 1990.

Tyson Library Association (Versailles) reported endowment income incorrectly in 1989. Operating receipts in 1990 reflect miscellaneous receipts only. Endowment receipts are reported as Special Funds and are not included in this report.

SECTION 5

In Section 5, Boonville-Warrick Co. Public Library did not receive most of its property tax income in 1990; therefore its operating funds expenditures were cut drastically.

INDIANA PUBLIC LIBRARIES

Total Operating Budgets

	1989	1990	% Change
Receipts			
Operating Fund Income	$105,218,913	$112,704,272	+ 7.1%
(includes: *Property Tax, State Distribution, Local Option Certified Shares, Revenue Sharing, Intangibles Tax, License Excise, County Option Income Tax, Contractual Revenue, Fines and Fees, Investment Income, Gifts, Miscellaneous*)			
Expenditures	$101,759,485	$112,644,089	+10.7%
(includes: *Personnel, Library Materials, Supplies and Equipment, Miscellaneous*)			

Summary of Statistics

Number of Public Library Agencies			
Central Libraries	238	238	
Branches	162	167	+ 3.1%

Stations	429	429	0%
Number of Registered Borrowers	2,825,634	2,848,394	+ .8%
State Population (1980 Census)	5,490,212	5,490,212	
Number of Residents Served	5,093,555	5,116,223	+ .5%
Total Circulation of Materials	41,330,293	44,940,132	+ 8.7%
Interlibrary Loan Requests			
Number Borrowed	75,747	81,506	+ 7.6%
Number Loaned	66,958	80,841	+ 20.7%
Holdings			
Books	17,047,104	17,772,853	+ 4.3%
Periodical Titles	41,709	44,784	+ 7.4%
Videos	132,790	168,737	+ 27.1%
Films	19,491	19,380	- .6%
Staff			
Number Full-Time Employees	2,184	2,277	+ 4.3%
Number Part-Time Employees	2,486	2,634	+ 5.6%

Indiana Governor's Conference on Library and Information Services November 16-18, 1990

Literacy Resolutions

1. Be it resolved that no single issue is more worthy of support than literacy because the foundation of a democratic, productive society is a literate population.

2. Be it resolved that all school and public libraries and other libraries where appropriate partici[illegible]e in a local literacy coalition.

3. Be it resolved that public and school libraries work with other agencies and professionals to encourage parents to promote the love of reading by reading to their children, discussing what is read, and participating in appropriate literacy activities.

4. To meet the needs of the adolescent, be it resolved that public and school libraries provide quality collections, inviting learning environments, professional librarians for young adults, youth advisory boards, and appropriate services and programs.

5. Be it resolved that librarians and educators encourage support for continued authorization and funding of federal ESEA Title monies and LSCA Title VI monies for literacy programs, and, be it further resolved, that such federal funding enhance, not replace, local funding.

Indiana Governor's Conference on Library and Information Services
November 16-18, 1990

Literacy Resolutions

6. Be it resolved that libraries employ and train staff who are sensitive to the special needs of the illiterate population, and be it further resolved that libraries provide facilities, space, technology, quality collections, and programs to support literacy in an inviting environment.

7. Be it resolved that all groups and individuals concerned with literacy encourage publishers to publish more quality materials for adult and young adult beginning readers and for non-English speaking (ESL) residents.

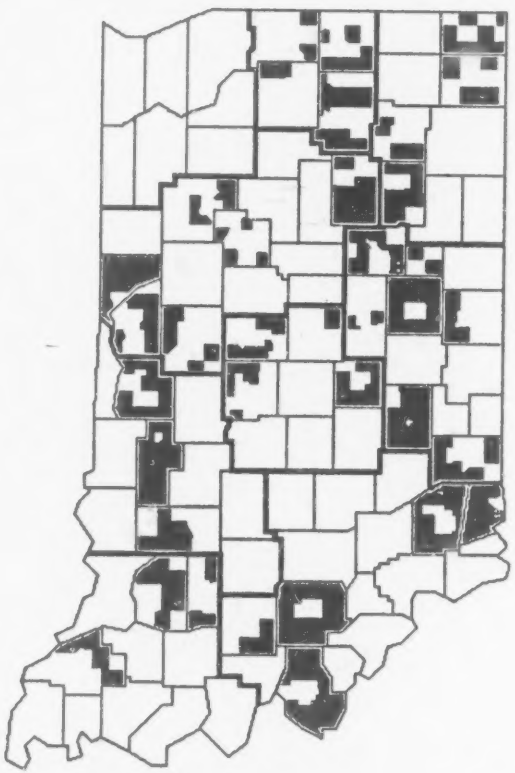
8. Be it resolved that libraries promote cultural awareness by providing access to foreign language materials and ESL materials for the general public.

9. Be it resolved that an effective network be developed to disseminate information about model literacy programs and research findings.

10. Because of the different ways in which people learn, be it resolved that libraries provide a variety of technologies, methods and information formats to support literacy programs.

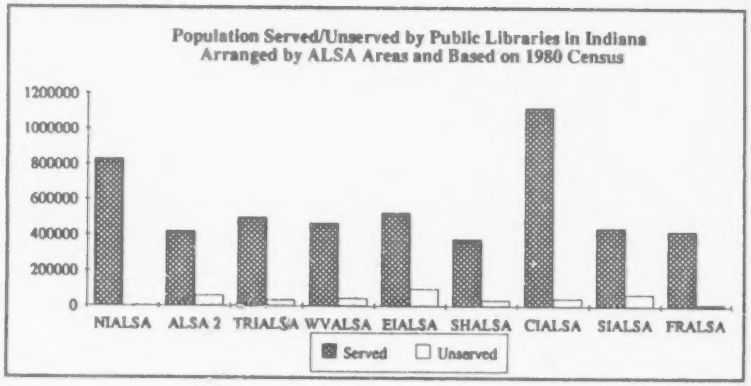
2. Public Libraries and Areas Served

Unserved Areas of Indiana

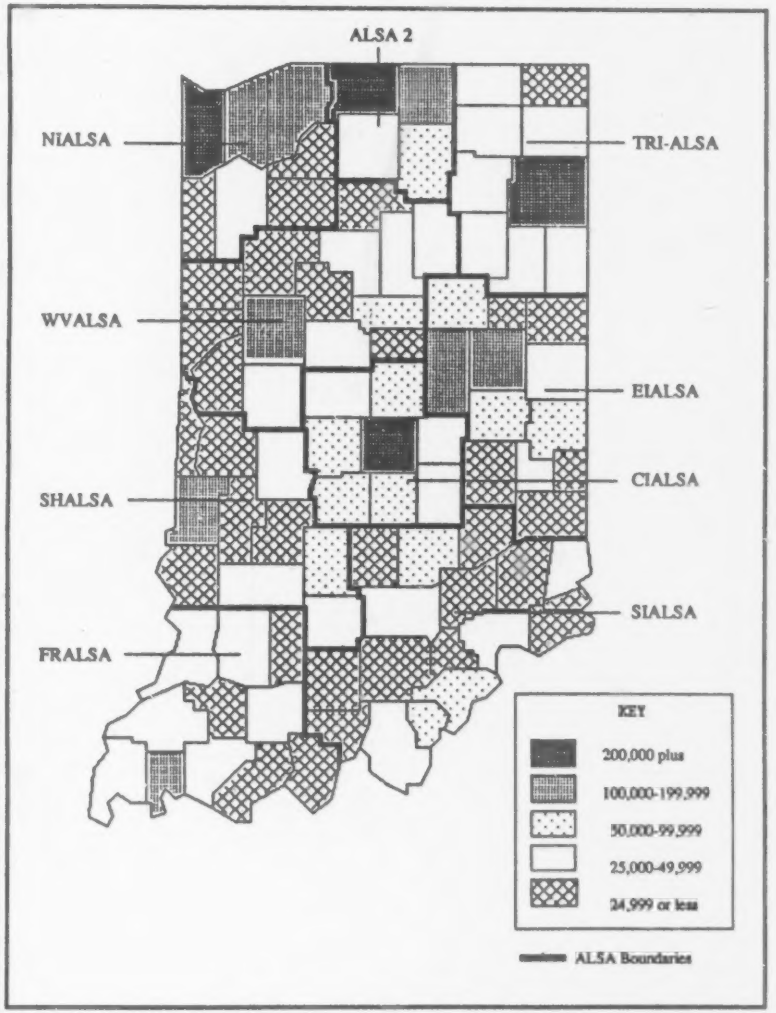


Total Unserved Townships:	239 (23.6%)
Total Unserved Population: (1980 Census)	403,465 (7.3%)

Black sections indicate areas not being served by a public library.
June 1991



POPULATION DENSITY (1980 CENSUS)



ALSA is an acronym for **Area Library Services Authority.** ALSAs are cooperative multi-type library organizations providing support services for member libraries.

Indiana Governor's Conference on Library and Information Services November 16-18, 1990

Productivity Resolutions

1. Be it resolved that libraries build coalitions with government agencies, other libraries, community agencies, educational agencies, business and industry, and other groups to promote effective and efficient ways to share resources to increase productivity for all Indiana residents and organizations.

2. Be it resolved that all Indiana libraries will be linked to a statewide and national telecommunications network providing access to an expanding number of databases of economic and social statistics and information and the public records of all state and federal government agencies.

3. Whereas information must be timely to foster productivity, be it resolved that all libraries be equipped with a workstation which shall include, but not be limited to, a telephone, a computer with a modem, and a fax machine.

4. Be it resolved that the Indiana Library and Historical Board direct the State Librarian to conduct, in cooperation with other appropriate agencies, an evaluation of the Indiana library and information services to ensure the most efficient delivery of information services throughout the state.

5. Be it resolved that orientation, continuing education and in-service training be provided with adequate funding to library professionals, support staff, and governing boards to improve and promote information services to Indiana residents.

Indiana Governor's Conference on Library and Information Services November 16-18, 1990

Productivity Resolutions

6. Be it resolved that Indiana information service providers examine barriers that impede the delivery of information and develop creative funding approaches to eliminate such barriers; that in furthering the tradition of open access, Indiana's libraries shall assist the state in implementation of the Americans with Disabilities Act by forming coalitions, by making relevant information widely available, and by working to bring all libraries into full compliance.

7. Be it resolved that it is crucial that recruitment and education of professional librarians needs to be restructured to meet the new demands of this information age.

8. Be it resolved that librarians will assume a leadership role in providing the public with training and support to use current and emerging technologies for accessing information and since all information is not of equal quality, libraries should also help users learn to evaluate kinds and sources of information.

9. In order to promote public awareness of, and to create financial support for, information services, be it resolved that all libraries regularly conduct assessments of their service area to measure the public's perception of library service and how such service may be improved.

Indiana Governor's Conference on Library and Information Services
November 16-18, 1990

Democracy Resolutions

1. Resolved that local publicly funded library services be mandated for all Indiana residents.

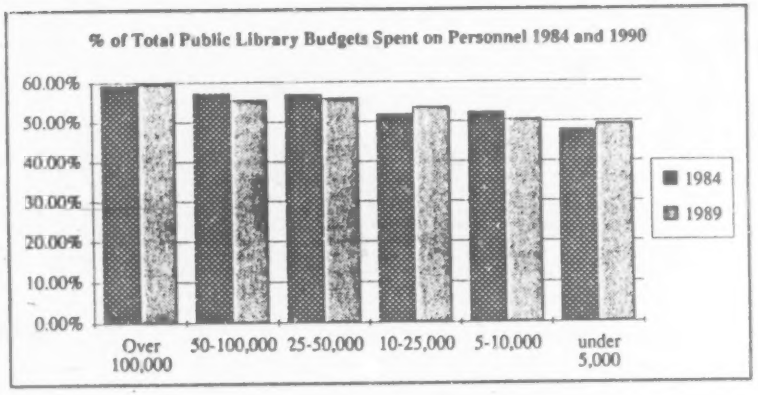
2. Resolved that information services shall, through cooperative planning, utilize compatible technologies, thereby enabling greater access and resource sharing.

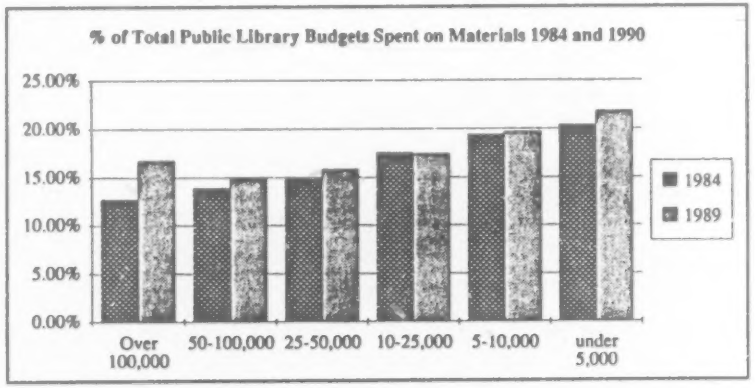
3. Resolved that libraries/information services adopt marketing techniques to match locally perceived needs with available resources.

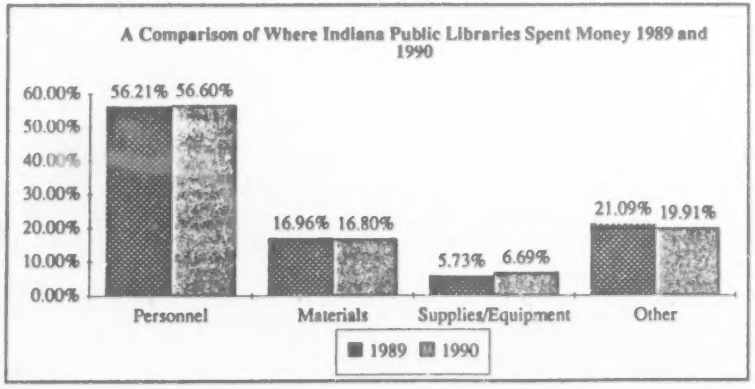
4. Resolved that Indiana libraries, in collaboration with their constituencies, shall establish comprehensive mission statements, long range plans, and implementation strategies for library service to all citizens of Indiana.

5. Resolved that all libraries take a proactive position on intellectual freedom, develop policies that apply to all types of materials, include methods to inform the public regarding the implications of banning information resources, and resist censorship in any form.

5. Expenditure Analysis (Public Libraries)







Total Excess Levy Appeal Awards to Public Libraries 1978 - 1990

1978	$ 2,572
1979	11,421
1980	130,205
1981	119,505
1982	unknown
1983	6,702,712
1984	569,848
1985	368,655
1986	1,443,476
1987	1,283,628
1988	2,345,450
1989	501,666
1990	1,453,468

Indiana Governor's Conference on Library and Information Services
November 16-18, 1990

Democracy Resolutions

6. Be it resolved that the Indiana General Assembly provide for adequate and equitable funding for each type of library to enable the achievement of standards and the goals of the Indiana Long Range Plan for Library Services and Development.

7. To equip future decision-makers with critical thinking skills, be it resolved that every public elementary, junior high/middle school and senior high school shall provide a full range of information services, maintain a library staffed by a full-time certified school media specialist, and develop strategies for total community involvement.

8. Resolved that by legislation or executive order, a committee be established to recommend and seek implementation of the most effective method to ensure public library accountability.

9. Resolved that outreach to all ages and all types of patrons shall be emphasized. The definition of outreach must include publicity and public relations, the public service of staff, and a commitment to all unserved and underserved groups.

10. Resolved that a statewide task force be created to devise a plan for the preservation of library materials and consider establishing a network for last copy depository activity.

Indiana Governor's Conference on Library and Information Services
November 16-18, 1990

Individual Resolutions

1. Be it resolved that the Federal government should guarantee the public's access to government information. Accurate, timely and complete government information, especially legal information, is critical to democracy. Maintaining open and equitable access to public information in all formats helps to insure a just and economically sound society. Support for national networks and programs like the Federal Depository Library Program is important to guarantee the continued availability to people of information about their government, regardless of where they live and work.

2. Be it resolved that library networking in Indiana is essential to provide leadership in an era of rapid change in information access and to improve the efficiency of library operations and the productivity of library staff.

3. Resolved that during National Library Week that government declare a National Library Day.

4. Be it resolved that salaries of all professional librarians be improved in Indiana to attract more qualified people to the changing profession of library and information science.

NOTE: SALARIES ARE REPORTED AS ANNUAL FULL-TIME SALARIES. IN THOSE CASES WHERE ONLY PART-TIME (LESS THAN 35 HOURS/WEEK) EMPLOYEES FILL A POSITION CATEGORY, PART-TIME SALARIES HAVE BEEN CONVERTED TO FULL-TIME EQUIVALENT SALARIES BASED ON A 35-HOUR WORK WEEK.

Indiana Governor's Conference on Library and Information Services November 16-18, 1990

Individual Resolutions

5. Be it resolved that Indiana Governor's Conference on Library and Information Services strongly recommend that Congress reauthorize in 1994 the Library Services and Construction Act expanded and funded to reflect the critical needs of special populations and the employment of emerging technologies, that Congress continue and fund those federal programs that benefit library users, and that Congress reauthorize and expand in 1991 the Higher Education Act in 1991 as recommended by the American Library Association.

6. Be it resolved by this the 1990 Indiana Governor's Conference on Library and Information Services commend its Chair, Dr. David Kaser, for his fair and even-handed guidance of the Conference; and further, be it resolved that the Conference delegates express appreciation to the various committees and staff for their excellent and untiring work; and further that the Conference thank the Governor of Indiana, Evan Bayh, for calling this conference.

Definition of Statistical Terms

THE MEAN: A measure of central tendency which is commonly termed the "average". The *mean* is derived by dividing the sum of all the values in any particular group of data by the values included in that total.

Example: (see page 51) Total Registered Borrowers (2,848,394) divided by total number of Indiana Libraries reporting registered borrowers (235) equals 12,121. So 12,121 is the *average number* of registered borrowers in each of 235 public libraries reporting registered borrowers.

THE MEDIAN: The popular term for the 50th percentile. The *median* is equal to the value of an indicator at or below which 50% of the values fall. The value of the *median* differs from the value of the *mean* when the distribution of the values of an indicator is not regular, but rather skewed or piled at either end of the range. When there is considerable difference between the *median* and the *mean*, the *median* is generally thought of as being the more valid measure of central tendency.

Example: (see page 51) Over half of the 238 public libraries (or at least 119 libraries) have 3,661 registered borrowers or less. Since there is a 8,460 difference between the *mean* and the *median* in this example, the *median* of 3,661 would be considered a "more valid measure of central tendency" of the number of registered borrowers of Indiana's 235 public libraries reporting registered borrowers than the *mean* of 12,121. In other words, 119 libraries have registered borrowers of 3,661 or fewer while 116 libraries have more than 3,661 registered borrowers.

The staff at the Indiana State Library are especially appreciative of the overwhelming support which is given to this project by the reporting libraries each year.
